

FP7 Future Internet-PPP

Generic Enablers & Use case service developments

Service Development Environment & Use case experimental sites

Use case and test site expansion, SME involvement, Sector requirements on Networks

European Future Internet 2020

**Two European Initiatives
One Goal:
European Leadership in the
Future Internet**

Large scale demonstration trails and scalability tests,

Investigation, prototypes, technology demos and pilots of network management and operation, cloud-based distributed computing and big data for network operation.

Detailed system design, optimisation, and development. Large trials of new systems for validation

New Network Architectures, New technologies and new operational paradigms, Proof of concepts

H2020 5G Infrastructure-PPP
